WHAT'S INCLUDED	RESPONSIBILITY	WHO, SPECIFICALLY
Everything in Standard	Agent + Human	see Standard sheet
Deep GA4 event + measurability audit (beyond Basic's tracking check)	AI Agent	cro-tracking-auditor
A/B test roadmap — 6 ready-to-run test ideas	Agent + Human	cro-ab-test-strategist designs the tests; a human sets them up and runs them in your A/B testing tool
Competitor benchmark (2 competitors)	AI Agent	cro-competitor-benchmark
Dedicated specialist + priority turnaround	Human	a named human specialist on our team, as your direct point of contact

Why this matters: our agents don't have write access to your live site, ad accounts, or platform listings — every agent-produced finding or fix comes as a ready-to-apply artifact. Anything marked **Human** or **Agent + Human** means a person on our team (or you, if you'd rather implement it yourself) applies it.
