

Standard Package

1,800 tokens (Rs 18,000) 8-day delivery

- AI Agent — researched, drafted, or audited by the delivery team's agents
- Human — requires a person on our team (or you) to actually apply/execute it
- Agent + Human — agent produces it, a human applies or delivers it

WHAT'S INCLUDED	RESPONSIBILITY	WHO, SPECIFICALLY
Everything in Basic	Agent + Human	see Basic sheet
Full funnel review: landing → checkout, up to 6 pages	AI Agent	cro-funnel-auditor
UX Laws Audit — key pages vs. 50+ usability & persuasion laws	AI Agent	cro-ux-laws-auditor — no external tool needed
Mobile + desktop UX review	AI Agent	cro-ux-reviewer
1 verification re-scan after fixes	Agent + Human	cro-ux-reviewer re-checks; only meaningful once a human has implemented the Basic-tier fixes on the live site first
Heatmap + session-recording analysis (bonus, if connected)	Agent + Human	cro-ux-reviewer analyzes it only if a heatmap tool like Hotjar/Clarity is already connected on your site — not a guaranteed line item

Why this matters: our agents don't have write access to your live site, ad accounts, or platform listings — every agent-produced finding or fix comes as a ready-to-apply artifact. Anything marked **Human** or **Agent + Human** means a person on our team (or you, if you'd rather implement it yourself) applies it.
