WHAT'S INCLUDED	RESPONSIBILITY	WHO, SPECIFICALLY
5 target keywords	AI Agent	seo-cluster
3 pages optimized	Agent + Human	seo-content/seo-technical draft the optimized copy and tags; a human applies the changes to your live site (no CMS write access)
5 technical fixes	Agent + Human	seo-technical finds the issues and writes the fix; a human applies it to your site
On-page checklist	AI Agent	seo-content + seo-technical

Why this matters: our agents don't have write access to your live site, ad accounts, or platform listings — every agent-produced finding or fix comes as a ready-to-apply artifact. Anything marked **Human** or **Agent + Human** means a person on our team (or you, if you'd rather implement it yourself) applies it.
